- Leveraged the **MERN stack (MongoDB, Express, React, Node.js)** to design and build responsive, efficient, and scalable web applications tailored to business needs, enhancing user engagement and system reliability.
- Implemented secure user authentication and authorization protocols, **including JWT-based token systems**, to protect user data and ensure compliance with industry standards.

EDUCATION

AUG 2020 - JUNE 2024

JUIT, SOLAN

- B.Tech - Computer Science
- 7.95 CGPA

MARCH 2019 - MARCH 2020

GMSSS SARKAGHAT

- HPBOSE - Class XII
- 81%

SKILLS PROGRAMMING

C++ | HTML | Tailwind CSS | Javascript | React JS
| Node JS

Express JS | MongoDB | Firebase

TECHNOLOGIES AND TOOLS

Postman | Github | VS Code

PROJECTS

E-Commerce (MERN) [\(Link to repository\)](#)

- Developed and implemented a full-featured e-commerce application using the **MERN** stack, integrating **secure user authentication**, product catalog, and seamless shopping cart functionalities.

XLSX-Creater-Converter-Editer-to-pdf (React, Express, Node JS) [\(Link to repository\)](#)

- Developed a **full-stack web application** that enables users to **create, edit, and manage Excel files** directly within the app.

- Integrated a feature to **convert Excel files to PDF**, ensuring high-quality and accurately formatted output.

- Built the backend with **Node.js and Express**, providing robust support for file management and conversions.

Learning Resource Management (React, Firebase) [\(Link to repository\)](#)

- Developed a **web-based platform** to manage and distribute educational resources for administrators, teachers, and students.

- Implemented **role-based access control for admins** (user management and reporting), teachers (content upload and editing), and students (resource access and feedback).

- Enabled **real-time uploading and organizing of learning materials by teachers** with category .
